

COMPATIBILITY REFERENCE SHEET

APPROVED SEED TREATMENT PACKAGES

Indigo's proprietary collection of seed treatments powered by the world's beneficial microbes contains live organisms that could be harmed by some commercially available seed treatments. The following treatment packages have been reviewed by Indigo for compatibility and can be safely used in conjunction with biotrinsic® by Indigo® biological products. Use of other seed treatments not listed below could risk damage to the Indigo microbes and negatively impact product performance. Please consult with Indigo if there are questions on compatibility of specific seed treatments.

Soybean - biotrinsic® M34 WP

APPROVED SEED TREATMENTS PLANTING WINDOW (DAYS)

Untreated	365
Allegiance®	365
ApronMaxx® RTA®	365
