Approved Seed Treatment Packages

Indigo's proprietary collection of seed treatments powered by the world's beneficial microbes contains live organisms that could be harmed by some commercially available seed treatments. The following treatment packages have been reviewed by Indigo for compatibility and can be safely used in conjunction with biottrinsic™ by Indigo® biological products. Use of other seed treatments not listed below could risk damage to the Indigo microbes and negatively impact product performance. Please consult with Indigo if there are questions on compatibility of specific seed treatments.

biottrinsic™ W12 FP

| Approved Chemistries | Planting Window (days) |
|----------------------|------------------------|
| Untreated | 45 |
| Acceleron® | 30 |
| CruiserMaxx® 250 | 30 |
| Lumigen Base | 30 |

After applying the Indigo microbial product onto the seed, it is recommended to plant the Indigo treated seed within the planting window listed for optimum results.

Please contact Indigo at (901) 250-5737
if your chemistry is not on this list, or if you
have any questions regarding this product
and its compatibility.

Growers are solely responsible for understanding and abiding by all applicable current:

(i) product use label directions, including restrictions for use; and (ii) federal, state and/or local regulations regarding the use of such product(s). Indigo disclaims any and all liability in connection with such grower obligations and practices.
